About Us

Since our founding in 2015, One Toronto has been a community fund dedicated to supporting families from all sectors of the religious Jewish community. We embody both the unity of the city and the diverse life circumstances that make it unique. Our goal from the start was to establish a structured, professional tzedakah fund that helps families facing financial and emotional challenges. We offer assistance through a confidential application process, helping to identify your specific needs and providing you with support to help you get back on your feet.
